OFFICE OF HEALTH AND SAFETY

SUBJECT: Proposed Cancellation to the Department of Energy Handbook

Facilities*

The Office of Worker Safety and Health Policy (AU-11) proposes to cancel Department of Energy (DOE) Handbook (HDBK) 1108-2002, *Radiological Safety Training for Accelerator Facilities*, in accordance with Technical Standards Program (TSP) procedures. AU-11 staff learned that this handbook is not directly used as a training guide. Any Office that still needs the document should be willing to assume the Preparing Activity responsibility for future document maintenance. I request the normal 60-day comment period.

The AU-11 point of contact for this document is John Blaikie. Mr. Blaikie can be reached at (301) 903-8470 or via e-mail at john.blaikie@hq.doe.gov.
