SUBJECT: Cancellation of DOE-STD-1158-2010, *Self-Assessment Standard for
DOE Contractor Criticality Safety Program*

The NNSA Office of Safety approves cancellation of the subject Standard and archiving its contents. The subject Standard was placed in RevCom for 60 days recommending cancellation and archiving. The RevCom results indicate that all the responding program offices concur with cancellation. The Department of Energy (DOE) sites and contractors are already using applicable codes and other Standards instead of this Standard. The information from this Standard will be made available to criticality safety practitioners via the DOE Nuclear Criticality Safety Program (NCSP) website.

If you have any questions regarding this action, please contact Lawrence Berg, Office of Nuclear Safety Services. Mr. Berg can be reached at (301) 903-0125 or via email at Larry.Berg@nnsa.doe.gov.
