

# TSM TRAINING

## Who's Who

**Author/Preparing Activity (PA)**—Provides original and updated document versions for review. Responds to comments provided in RevCom (192)

**Technical Standards Manager (TSM)** – Manages SME and Delegate accounts; assigns reviewers (SMEs) and Delegates; submits the comment package that represents the organization's official position through the review, edit and consolidation of local comments and submit request responses. (80)

**Alternate** – Serves as backup to the Approval Coordinator; manages accounts, assigns reviewers and Delegates; submits the official position of the organization through the review, edit and consolidation of local comments and question responses..(90)

**Delegate**—Supports the review process when assigned to a specific review – assigns SMEs, edits and consolidates comments and recommends comments for inclusion in official submission. DOES NOT submit the comment package(~150)

**Approving Official (AO)** – Reviews comments to be submitted as representative of the organization's review. RevCom will automatically send a PDF copy of the comments via email as part of the Submit Package function. (Organizational option)

**Subject Matter Expert (SME)**—Reviews a document and enters applicable comments and/or explicit data request responses in RevCom.

Questions?

## Phase 1 - Project Justification Statement – 15 business days

The author submits the Project Justification Statement for reviewers to consider whether the project should go forward. The process consists of answering a question.

- Respond to the question
- Review SME submissions
- Avoid submitting comments or No Comment
- Use of the Notes box
- Required Responses that allow the PA to post the draft for review (EH, EM, NE, NA, SC, MA)

# Project Justification Statement

The author submits the Project Justification Statement. View Details shows SME responses in a popup window.

## Section: Technical Standards Program Project Justification

Do you concur that the proposed revision is justified and should move forward?

Answer Question

Answer Summary:

Choices	My Answer	Delegates and SMEs			
		% Response	No. Responses		
Yes, I concur.	N/A	100.00%	1	100.00%	2
No, I do not concur. Explanation is in the Notes box.	N/A	0.00%	0	0.00%	0
The Standard does not apply to my organization	N/A	0.00%	0	0.00%	0

## DOE-STD-XXXX-YR, Firearms Qualifications for Department of Energy (DOE) Protective Forces, All TSMs Review and Response Part II

Subject Areas: Safeguards and Security, Safety  
Status: Open

[Document for Review](#)  
[References](#)  
[Discussion](#)  
[Comment Disposition](#)

### Section: 8. PRECISION RIFLE QUALIFICATION COURSES

#### 8. PRECISION RIFLE QUALIFICATION COURSES.

##### 8.1. Precision Rifle Daylight

16 Total Rounds  
80 Points Possible  
Points Needed to Qualify: 64 points at 80%

Add Comment

#### Stage I

Technique: Tactical response to a long-distance threat after moving into position and using a rifle with a cold, clean barrel to obtain a precision first shot.

Yard line:	Start at 150, run to 100
Rounds:	1
Targets:	1
Load with:	1 round
Strings:	1
Position:	Shooter's choice

Procedure: Begin with a clean rifle, cold barrel, in the half-load configuration, 1 round loaded into the magazine. Run to the 100-yard line with the rifle in a tactical carry position, assume a position of choice, chamber, fire 1 round to target's head within 26 seconds.

Questions?

## Phase 3 - Response Negotiation – 30 days

There is no comment submission for this phase. The author submits a redline showing changes in response to comments. The comment response report is posted in the References. During this 30-day period the reviewers have an opportunity to review the response to comments and discuss the authors resolution, via email or telephone, of their comments with the author.

- No RevCom action or submission
- This process provides PA contact information
- Review the Comment Response
- Review the redlined markup
- Review Comment Disposition
- Call or send email to the author if there are issues to resolve
- A word from Jeff on issues that cannot be resolved—organization resolution

# Response Negotiation

## Comment Response - Accept/Accept in Part/Reject

<p><b>SME Derek.Favret@science.doe.gov</b> (2-1-3) SME Derek.Favret@science.doe.gov</p> <p>Para 1: Suggest revising sixth sentence "This Standard is applicable..." to "This Standard is applicable...and remedial action of property with <u>the potential</u> for residual radioactive contamination."</p> <p><b>Response:</b> <i>Accept</i> Mike Stewart for DOE-EH - Office of Environment, Health, Safety and Security</p> <p><b>SME Derek.Favret@science.doe.gov</b> (2-1-4) SME Derek.Favret@science.doe.gov</p> <p>Para 1: Suggest deleting "DOE rule" from seventh sentence and revising to "This Standard, unless revoked by <u>Rule</u>, DOE Directive, or contract..."</p> <p><b>Response:</b> <i>Accept</i> Mike Stewart for DOE-EH - Office of Environment, Health, Safety and Security</p>
<p><b>Essential comment from Stephen McDuffie for DOE-CTA - Central Technical Authority</b></p> <p><b>Included comments:</b></p> <p><b>SME amanda.anderson@em.doe.gov</b> (2-1-5) SME amanda.anderson@em.doe.gov</p> <p><b>Issue:</b> Though this standard is not currently invoked, due to the nature of the pre-approved authorized limits, the Order should be revised to invoke this standard. These values for pre-approved surface limits were previously included in 5400.5 as they were required to be followed for clearance of materials unless other ALAs were approved. Additionally, the first sentence of section 1.2 states that this standard presents principle "requirements" for release and clearance of property.</p> <p><b>Proposed new wording:</b>  Explain the standard that although it is not currently invoked by DOE Order 458.1, the next revision of the Order will consider invoking the standard due to the nature of the pre-approved authorized limits.</p> <p><b>Response:</b> <i>Accept In Part</i> Mike Stewart for DOE-EH - Office of Environment, Health, Safety and Security</p> <p>Unable to predict future actions in Tech STD. However, a draft proposal to rewrite DOE O 458.1 is being prepared for submission to the DRB. One of the points for the review is to invoke this Tech STD.</p>
<p><b>Suggested comment from Jeffrey Feit for DOE-EH - Office of Environment, Health, Safety and Security</b></p> <p><b>Included comments:</b></p> <p><b>SME carlos.corredor@hq.doe.gov</b> (2-2-1) SME carlos.corredor@hq.doe.gov</p> <p>Correct from "A ppendix" to "Appendix"</p> <p><b>Response:</b> <i>Accept</i> Mike Stewart for DOE-EH - Office of Environment, Health, Safety and Security</p> <p>Appendix is correct with no additional space in the word and PDF submitted to RevCom; perhaps an artifact of uploading.</p>
<p><b>Suggested comment from Rosalie Brown for DOE-SC -Office of Science</b></p> <p><b>Included comments:</b></p> <p><b>SME Derek.Favret@science.doe.gov</b> (2-3-1) SME Derek.Favret@science.doe.gov</p> <p>Para 1: Suggest revising first sentence "DOE has been actively reviewing..." to "DOE <u>continually seeks</u> ways to improve..."</p> <p><b>Response:</b> <i>Accept</i> Mike Stewart for DOE-EH - Office of Environment, Health, Safety and Security</p>

## Sample redline markup

- Cognizance. The area over which a CSA has operational oversight. Normally, a statute or executive order establishes a CSA's cognizance over certain types of information, programs, or non-CSA agencies, although CSAs may also have cognizance through an agreement with another CSA or non-CSA agency or an entity. A Cognizant Security Agency (CSA) may have cognizance over a particular type(s) of classified information based on specific authorities (such as those listed in 32 CFR §2004.1(c)), and a CSA may have cognizance over certain agencies or cross-agency programs (such as DoD's cognizance over non-CSA agencies as the Executive Agent for National Industrial Security Program (NISP), or Office of the Director of National Intelligence's (ODNI) ~~ODNI's~~ oversight (if applicable) of all intelligence community elements within the executive branch). Entities fall under a CSA's cognizance when they enter or compete to enter contracts or agreements to access classified information under the CSA's cognizance, including when they enter or compete to enter such contracts or agreements with a non-CSA agency or another entity under the CSA's cognizance.
- Cognizant Security Agency (CSA). The agencies E.O. 12829, *National Industrial Security Program* ~~(NISP)~~, sec. 202, designates as having NISP implementation and security responsibilities for their own agencies (including component agencies) and any entities and non-CSA agencies under their cognizance. The CSAs are: Department of Defense (DoD); Department of Energy (DOE); Nuclear Regulatory Commission (NRC); Office of the Director of National Intelligence (ODNI); and Department of Homeland Security (DHS).
- Cognizant Security Office (CSO). An organizational unit to which the head of a CSA delegates authority to administer industrial security services on behalf of the CSA.
- Consultant. An individual under contract to provide professional or technical assistance to DOE or an entity in a capacity requiring access to classified information or other DOE assets.
- ~~Classified Critical Infrastructure Protection Program (CCIPP). The DHS program that executes the classified infrastructure protection program designated by E.O. 13691, "Promoting Private Sector Cybersecurity Information Sharing." The Government uses this program to share classified cybersecurity-related information with employees of private sector entities that own or operate critical infrastructure. Critical infrastructure refers to systems and assets, whether physical or virtual, so vital to the United States that incapacitating or destroying such systems and assets would have a debilitating impact on security, national economic security, national public health or safety, or any combination thereof.~~

1-1-15

On p. xv, Safety-in-Design definition ties the program to cost. Although there are cost implications to safety-in-design, this is an effect not an inherent part of the definition of SID and thus needs to be deleted.

## Suggested comment from Gladys Udentia for DOE-NA - NNSA

### Included comments:

**SME safong@npo.doe.gov**  
(1-1-5) SME safong@npo.doe.gov

This standard is being invoked as required by DOE O 426.2A . Is DOE O 426.2A being issued soon? NPO currently uses DOE 426 Chg 1 (7-29-2013) in overseeing the contractor's implementation of its training program. It is difficult to review this standard to if it aligns with a document that has not been issued.

**SME millard5@llnl.gov**  
(1-1-2) SME millard5@llnl.gov

This new DOE-STD-1070-YR refers to DOE Order 426.2A which went through Revcomm in 2020 and is now on the pending list. It appears to rely on DOE O 426.2A being released and attached to M&O contracts prior to or simultaneously with DOE-STD-1070-YR. **Please elaborate on the timeline for both documents. Also, please confirm it to be true that this standard cannot go into effect unless and until DOE 426.2A is in effect.**

## Essential comment from Rosalie Brown for DOE-SC -Office of Science

### Included comments:

**SME nancy.hui@science.doe.gov**  
(1-1-4) SME nancy.hui@science.doe.gov

Issue:  
Incorrect reference was used  
Proposed new wording:

1. The draft DOE O 426.2A uses "must evaluate and approve" phrase. However, the draft DOE-STD-1070-20XX uses "are required" phrase. Should this standard be used the same phrase?
2. Incorrect DOE O were used:
  - DOE O 206.1, Department of Energy Privacy Program
  - DOE O 226.1B, Implementation of Department of Energy Oversight Policy

## Suggested comment from Rosalie Brown for DOE-SC -Office of Science

### Included comments:

**SME David.Thrasher@science.doe.gov**  
(1-1-9) SME David.Thrasher@science.doe.gov

Recommend spelling out "NNSA" for clarity.

	<b>Major Comment by Kevin.levy@orem.doe.gov (SME) on 09/01/2022 11:07:03</b>	8-3-5
	<b>Issue:</b> In Section 7.1.3.1 It is unclear from this statement whether Appendix B and F provide guidance that is meant to be applied in addition to normal requirements or in lieu of them. As written, it provides additional requirements and provides no exemption from normal requirements, which does not appear to be the intent and is impractical for demolition operations. <b>Proposed new wording:</b> In Section 7.1.3.1 It is unclear from this statement whether Appendix B and F provide guidance that is meant to be applied in addition to normal requirements or in lieu of them. As written, it provides additional requirements and provides no exemption from normal requirements, which does not appear to be the intent and is impractical for demolition operations.
