

DOE TECHNICAL STANDARDS PORTAL

Information and tips for the
Technical Standards Portal

- The **Policy Portal** application is an enterprise content and document management system for policies and procedures that allows us to organize the Department's Technical Standards and other information simply and quickly in a secure, robust environment.
- Documents are organized by number, subject, type, source, and issue date—and the Policy Portal lets us craft the pathways for browsing and searching that makes the most sense for employees, managers, and contractors throughout the Department.
- The Portal keeps track of all Technical Standards versions and changes. The system tracks the full life-cycle of every document, from issuance to final cancellation. With a fully indexed and searchable archive, users can easily identify all of the policies that were in effect on any given day.

The home page uses a simplified design that highlights the primary components of the site: Standards, Archives, Reports, and Resources.

Links to lists of the most recent updates and news items are here along with a link to sign up for Email Alerts.

The toolbar at right provides easy access to operations and resources frequently used by PAs, TSMs, and managers.

The toolbar available at the right side of every page is a series of links to familiar material related to Technical Standards. In order from the top are links to

- RevCom, the online review, comment, and approval system for draft DOE Technical Standards. You can sign in here to review documents.
- TSP Resources includes program information, a current list of Technical Standards Managers (TSMs) and their responsibilities, the TSP Style Guide and other information
- Technical Standards Tools, includes useful material for Preparing Activities, TSMs and subject matter experts, including how Technical Standards are processed and a collection of templates for document development
- References includes links to Directives and NNSA supplemental directives, the Code of Federal Regulations and Federal Acquisition Regulations, and links to other Federal Agency Standards web sites
- Technical Standards Procedures address writing, revising, and maintaining standards
- Reports address document status, recent activities within the program, Top 10, and Annual OMB Reports
- Help where you can find information about searching portal content and review FAQs

Click on the tools to explore content for each.

Finding Documents

There are three ways to locate documents on this site.

Enter a document number or text and select the status and issuing organization to quickly search the collections.

Select **Advanced Search** to narrow your search using advanced criteria.

The screenshot shows the DOE Technical Standards Portal homepage. At the top is the ENERGY.GOV header with the Office of Environment, Health, Safety & Security. Below this is a navigation bar with links to SERVICES, POLICY, GUIDANCE & REPORTS, MISSION, ABOUT US, and OFFICES. A secondary navigation bar includes HOME, STANDARDS, ARCHIVES, and REPORTS. The main content area features the Department of Energy Technical Standards Program and Office of Nuclear Safety logo, followed by three large image-based sections: Standards (showing a worker in a hazmat suit), Resources (showing a stack of books), and Archives (showing a stack of papers). Below these is a 'NEWS & UPDATES' section with a list of recent news items and a 'More news...' button. To the right of the news section is a paragraph about the DOE Technical Standards Program (TSP) and a list of links: 'Technical Standards Procedures and Tutorials' and 'DOE Technical Standards RevCom Phases'. On the far right is a vertical sidebar with icons for RevCom, TSP Resources, Technical Standards Tools, References, Technical Standards Procedures, Reports, and Help. Annotations with arrows point to the 'Current | Standards' dropdown menu, the 'Advanced Search' button, and the 'Standards' and 'Archives' sections.

Help

Select **Standards** or **Archives** to browse the document collections.

In addition to searching within the Technical Standards Portal, you have the option to search **both** the Directives, and NNSA Portals

For example, if you choose Current under **Status** and All under **Organization** and search for “radiation protection”, the results will include listings of current documents from both the Directives and Technical Standards Portals.

The screenshot shows the DOE Technical Standards Portal homepage. At the top is the ENERGY.GOV header with the tagline 'Office of Environment, Health, Safety & Security'. Below this is a navigation bar with links: SERVICES, POLICY, GUIDANCE & REPORTS, MISSION, ABOUT US, OFFICES, HOME, STANDARDS, ARCHIVES, and REPORTS. The main header area features the Department of Energy Technical Standards Program logo and the Office of Nuclear Safety. Below the header are three large image tiles labeled 'Standards', 'Resources', and 'Archives'. A 'NEWS & UPDATES' section is on the left, listing recent news items. On the right, there is a sidebar with various tools and resources. A search box is located in the top right corner, and a dropdown menu is open below it, showing options for STATUS (Current, Archive) and ORGANIZATION (All, Standards, Directives, NNSA). An arrow points from the text box above to the search box, and another arrow points from the text box below to the search box.

The search box is in the upper right corner anywhere on the site. Use quotation marks as well as AND and OR operators to make your search more restrictive.

DEPARTMENT OF ENERGY TECHNICAL STANDARDS PROGRAM OFFICE OF NUCLEAR SAFETY

ADVANCED SEARCH FOR CONTENT

This search form enables you to find content by specifying one or more search terms. Remember that you can use the quick search anytime, it's normally good enough, this search form is just if you want to be more specific.

DOCUMENT STATUS

Select the status of documents to search. You may choose one or more.

- ☐ Archive
- ☐ Canceled
- ☒ Current
- ☐ Draft

DOCUMENT TYPE (FOR TSP TYPES ONLY)

Select the type(s) of documents to search. You may choose one or more TSP Document Types.

- ☐ Cancellation Memo
- ☐ Functional Area
- ☐ Qualification Standard
- ☐ Handbook
- ☐ NA-Standard
- ☐ Project Justification
- ☐ Statement
- ☐ Reaffirmation Memo
- ☐ Specification
- ☐ Standard

TEXT

For a simple text search, enter your search term here. Multiple words may be found by combining them with **AND** and **OR**. The text in this field will be matched with documents' contents, title, and description.

Search by Text

TITLE

Return items matching this title.

Search by Title

DOCUMENT ID

Return items matching this full or partial ID. You may enter a full ID such as "DOE-STD-1066-2012" to locate a specific document, or you may enter a partial ID such as "DOE-STD-1066" to return all documents that have "1066" in their IDs.

Search by Document ID

ISSUE DATE BETWEEN

Return only items that were issued in the date range specified.

yyyy/mm/dd to yyyy/mm/dd

OFFICE OF PRIMARY INTEREST (OPI)

Return only items that were issued by the OPI(s) selected.

☒ Select All/None

- ☐ AU - Office of Environment, Health, Safety and Security
- ☐ EA - Enterprise Assessment
- ☐ EE - Energy Efficiency and Renewable Energy
- ☐ EH - Office of Environment, Safety and Health
- ☐ EM - Office of Environmental Management
- ☐ HS - Office of Health, Safety and Security
- ☐ IM - Office of the Chief Information Officer
- ☐ MA - Office of Management
- ☐ NA - National Nuclear Security

Search

Click on **Advanced Search** when you have specifics for your inquiry

- Select from the options available to narrow or expand your search
- Select one or more from Document Status collection (current, archive or draft).
- Choose one or more document types.

The following are optional but will help to refine your search:

- Enter text of interest (use AND/OR to combine multiple words).
- Enter a document title.
- Enter all or part of a document number (e.g., entering 1066 would return that standard).
- Select an office of primary interest (OPI) to find all documents produced by that organization. You can choose more than one.
- Enter dates to limit your search to a specific time period

Choose one of these tabs to find documents by Status.

Use the options on the left to limit the list display based on various criteria.

Browsing the Document Collections

Faceted search/navigation/browsing (at left of the document list) allows you to set limits on the list that is being displayed. You will be "filtering" the list.

- Choose one or more of the Document Types (Standard, NA Standard, Handbook, Functional Area Qualification Standard, Specification, Project Justification Statement, Reaffirmation Memo. Everything you have *not* selected will be filtered out of the list.
- You can select an OPI.
- Narrow your list by Issue Date within a specific time period.
- You can include or exclude documents subject to Defense Nuclear Facilities Safety Board review or ones that are invoked in DOE Directives
- As you filter your search, you will see the list of documents change to accommodate your filters. You can remove some or all of the filters in the last box to revise or you can choose Remove all.

CURRENT

DOE-STD-1066-2012, Fire Protection

by jbisler — last modified Jan 05, 2017 02:39 PM — [History](#)

Functional areas: Fire Protection, Facility Safety, Operations, Emergency Response, Wildland Fire Management

This Standard was developed to provide acceptable methods and approaches for meeting DOE fire protection program and design requirements and to address special or unique fire protection issues at DOE facilities that are not comprehensively or adequately addressed in national consensus standards or other design criteria.
