

memorandum

DATE: May 11, 2006
REPLY TO: EH-52:JRabovsky:3-2135
ATTN OF:
SUBJECT: APPROVAL OF CHANGE NOTICE 1 TO DEPARTMENT OF ENERGY (DOE)
HANDBOOK 1184-2004, *RADIOLOGICAL CONTROL PROGRAMS FOR SPECIAL TRITIUM COMPOUNDS*
TO: Dennis Kubicki, EH-24
Technical Standards Manager

This memorandum forwards the subject Change Notice 1 to DOE Handbook, DOE-HDBK-1184-2004, which has approved for publication and distribution. The change to this handbook consists of a correction to the rule of thumb, listed in Appendix A, for converting the uptake of tritium oxide into radiation dose. A factor of 1/100 was inadvertently omitted from this rule of thumb when this DOE Handbook was originally published. This change does not affect the references, is not of a technical nature, and does not exceed 25 percent of the standard.

A Word file of this document, on CD and a table of changes are attached. The preparer and point of contact for this proposed change notice is Joel Rabovsky. He can be reached on 3-2135 or at joel.rabovsky@eh.doe.gov.
