

## Department of Energy

Washington, DC 20585

August 16, 2016

MEMORANDUM FOR JEFFREY D. FEIT

OFFICE OF QUALITY ASSURANCE  
OFFICE OF NUCLEAR SAFETY

FROM:

BILL R. McARTHUR, PhD, CIH  
DIRECTOR  
OFFICE OF WORKER SAFETY AND HEALTH POLICY  
OFFICE OF HEALTH AND SAFETY

SUBJECT:

Proposed Cancellation to the Department of Energy Handbook  
1113-2008, *Radiological Safety Training for Uranium  
Facilities*

The Office of Worker Safety and Health Policy (AU-11) is proposing to cancel and archive Department of Energy (DOE) Handbook (HDBK) 1113-2008, *Radiological Safety Training for Uranium Facilities*, and submits this proposal for review and comment in accordance with Technical Standards Program (TSP) procedures.

Based on the comments received from the RevCom review of the proposed revision of DOE-HDBK-1113, AU-11 staff learned that this handbook is not directly used as a training guide and, therefore, is not actively managed by the TSP. This handbook should be cancelled as an active document and be archived on the TSP Web site.

The normal 60-day comment period is requested once the document is posted and available in RevCom.

The AU-11 point of contact for this document is James Dillard. Mr. Dillard can be reached at (301) 903-1165 or via e-mail at [james.dillard@hq.doe.gov](mailto:james.dillard@hq.doe.gov).
