Course Title:	Radiological Control Technician
Module Title:	Communication Systems
Module Number:	2.02

Objectives:

2.02.01	Explain the importance of good communication.
2.02.02	Identify two methods of communication and be able to determine different types of each.
2.02.03	Describe different types of communication systems.
2.02.04	Describe the FCC and DOE guidelines regarding proper use of communication systems.
2.02.05	Describe general attributes of good communications.
2.02.06	Explain the importance of knowing how to contact key personnel.
2.02.07	Identify the communication systems available at your site and methods available to contact key personnel.
2.02.08	Describe the emergency communication systems available at your site.

Instructional Aids:

ß

ß

- 1. Overheads
- 2. Overhead projector/screen
- 3. Chalkboard/whiteboard
- 4. Recommended radio, telephone, pager, warning alarms, phonetic alphabet handout
- 5. Lessons learned

I. MODULE INTRODUCTION

- A. Self-Introduction
 - 1. Name
 - 2. Phone number
 - 3. Background
 - 4. Emergency procedure review
- B. Motivation

Good communication skills are essential to an RCT. Each RCT should develop an ability to communicate using both verbal and non-verbal media. This skill will ensure important information is transmitted to the proper individuals in a clear and concise manner.

- C. Overview of Lesson
 - 1. Importance of communication
 - 2. Methods of communication
 - 3. Communication systems
 - 4. FCC and DOE guidelines
 - 5. General attributes of good communications
 - 6. Contact of key personnel
 - 7. Site communication systems
 - 8. Site emergency communications
- D. Introduce Objectives

O.H.: Objectives

II.	ΜΟΙ	DULE OUTLINE	
11.			01: /: 0.02.01
	A. I	mportance of Communications	Objective 2.02.01
	1	. Clear	
	2	. Understood	
	3	. Received	
	В. Т	Wo Methods of Communication	Objective 2.02.02
	1	. Verbal	Ask the student to name the two ways to communicate and examples.
	2	. Nonverbal	
	C. C	Communication Systems	Objective 2.02.03
	1	. Public Address	Ask students to name communication systems available in everyday use at home and work.
	2	. Telephones	
	3	. Two-way Radios	
	4	. Pagers	
	5	Computer Mail Systems	
	6	Computer Bulletin Boards	
	D. F	CC and DOE Guidelines	Objective 2.02.04
	1	. When using communication systems licensed by the Federal Communications Commission and operated by the Department of Energy, one cannot:	Stress importance of complying with these restrictions.
		a. Use profane, indecent, or obscene language.	

E.

	b.	Willfully damage or permit radio equipment damage.		
	c.	Cause malicious interference with any radio communications.		
	d.	Intercept and use or publish the contents of any radio message without the permission of the proper authorities.		
	e.	Make unnecessary or unidentified transmissions.		
	f.	Transmit without first making sure that the transmission will not cause harmful interference.		
	g.	Make any adjustments, repairs, or alterations to a radio transmitter without licensing by the FCC or acceptable equivalent.		
	h.	Transmit a call sign, letter, or numeral which has not been assigned to your station.		
	i.	Rebroadcast another transmission (ie radio station music).		
Ge	nera	l Attributes of Good Communications	Objective 2.02.05	
1.	Mi	nimize the use of abbreviations and acronyms.	Stress importance of good habits and technique.	
2.	Ma	ke all oral instructions clear and concise.		
3.	. Ensure the identity of the person(s) is/are clearly understood.			
4.	Us	e clear, precise terminology.	See Table 1 - "Phonetic Alphabet and Numbers"	
5.	. Repeat back messages, either paraphrased or verbatim.			
6.	Speak distinctly and deliberately.			

DOE-HDBK-1122-99

Module 2.02 Communication Systems

	7. Acknowledge all communications.		Acknowledge all communications.	
	F.	Contacting Key Personnel		Objective 2.02.06
	 Getting knowledgeable people to locations is necessary for routine, emergency, and non-routine circumstances. 		necessary for routine, emergency, and non-routine	
		2.	Important for the protection of personnel, equipment and to prevent radiological releases.	
	3. RCTs should be aware of communication equipment.		RCTs should be aware of communication equipment.	
	G. Site Communication Systems		e Communication Systems	Objective 2.02.07
		(Insert site specific information here.)		
	H.	En	nergency Communication Systems	Objective 2.02.08
		(In	sert site specific information here.)	
III.	SUMMARY		IARY	
	A.	Review major topics		
		1.	Importance of communication	
		2.	Methods of communication	
		3.	Communication systems	
		4.	FCC and DOE guidelines	
		5.	General attributes of good communications	
		6.	Contact of key personnel	
		7.	Site communication systems	
		8.	Site emergency communication	
	B.	Re	view learning objectives	

IV. EVALUATION

Evaluation should consist of a written examination comprised of multiple choice, fill-in the blank, matching and/or short answer questions. 80% should be the minimum passing criteria for examinations.
